

# Intellinews

An Intellimali Publication: June 2020

## INTELLIMALI TRANSACTIONAL APPS AVAILABLE ON ALL MOBILE PLATFORMS

Intellimali offers both recipients and the merchant community a wide range of solutions through which they can transact. Alongside the Intellicard, USSD and website interface, mobile APPS are also available.

More than 110,000 recipients choose to transact from the INTELLICELL APP and many merchants have now adopted the INTELLIPOS APP as their point-of-sale. These APPS are available on all three platforms and support IOS, Android and Hauwei operating systems.

Recipients of funding can operate the full suite of transactional services from INTELLICELL – including purchases and withdrawals, real-time reporting on their account, geo-location searches for merchants and in-app communication.

## INTELLIMALI CARES COVID-19 CONTRIBUTIONS

During these unusual and difficult months, our Intellimali Cares has been working closely with various charities. We were delighted to assist **Sobambisana Primary School** in Khayelitsha by providing them with thermometers as part of their Covid-19 protocol.

We also took great pleasure in assisting **Ikamava Labantu Community Centre** by funding food and hygiene packs which were delivered to recipients in informal settlements.
