OUR CONTINUED COMMITMENT TO COMMUNICATION

“Good communication is the bridge between confusion and clarity” - Nat Turner

During these unusual times, everyone needs access to the important information that shapes their world. We recognise this fact, in Higher Education and other communities and have implemented strategies which help... funders gain immediate insight into the state of their funds and the usage patterns of their recipient; which help ...recipients get the most out of their Intellimali-managed allowance and which enable... merchants to accurately forecast sales and refine their business processes.

Our communication services include...

Telephonic support

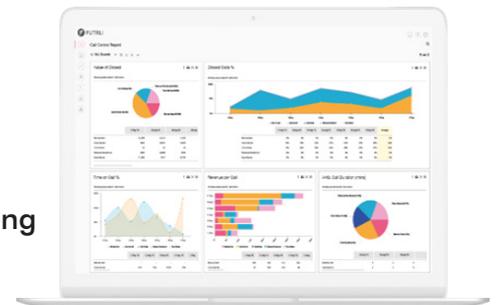

Internet chat services

Self-service features

Enhanced reporting

While our goal is to continue to provide “high tech” solutions, we know that communication is a human connection too. Please be assured that the “high tech” solutions on offer will always be supported by the “high touch” services of our wonderful team.

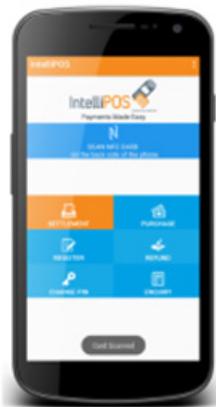

INNOVATION REMAINS OUR ONGOING PASSION

We remind all funders, recipients and merchants that our wide range of innovative solutions are designed specifically to enable efficient, real-time payments both instore and online.

These innovations also include detailed and accurate reporting features which ensure that each transaction is completely transparent and appropriately recorded. Solutions include...

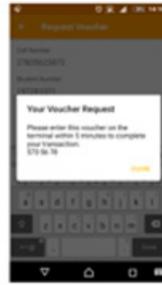

INNOVATIVE SOLUTIONS ON DISBURSEMENT OF STUDENT ALLOWANCES

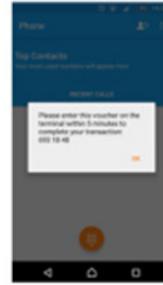

IntelliPos

IntelliScan

IntelliCard

IntelliCell

WhatsApp

UPLOAD INTERFACE FOR PRIVATE FUNDERS

Private Funders are reminded that we offer a facility through which they can upload and manage their allowances to their recipients.

The interface prompts and guides the user every step of the way and then offers a two-person authorisation process.

Additional functionality includes the ability to create “batches”, to allocate funds per batch, to amend recipient allowances and to access reports.

All upload batches are released by the Intellimali team after our final security checks are completed to provide Funders with total peace of mind.

INTELLIMALI CARES

As part of the Mandela Day celebrations, Intellimali chose to support The Zoe Project.

This amazing organisation seeks to empower individuals to make informed decisions for themselves with regards to pregnancy crisis situations, through counselling, information, educational programmes, networking with other related organizations, feeding schemes and also clothing distributions. They aim to empower women and youth in regard to sexual activity, human rights and individual identity, so they become secure and valuable assets within the community as a whole.

PROMOTING A CULTURE OF ONGOING LEARNING

During these tough, work-from-home times we have encouraged our staff to continue to learn and grow. It is rewarding when team members use the channels available and advance their own capability and we commend them!
